S.N. MOURYA

JAVA FULL STACK DEVELOPER

Bengaluru, India (Open to Relocate) | +91 8688610728 | s.n.mourya2005@gmail.com
GitHub: github.com/snmourya2005 | LinkedIn: mourya-sn-1011792b6 | LeetCode: @ytUtdYUYwr

PROFILE

Results-driven Java Full Stack Developer with hands-on experience designing and shipping 2+ production-grade full-stack web applications. Strong expertise in building scalable backend systems with Spring Boot REST APIs and dynamic frontends with React.js. Proven ability to eliminate performance bottlenecks (40% reduction in API response time), implement deterministic systems for mission-critical applications, and deliver end-to-end solutions. Solid foundation in Data Structures & Algorithms with proficiency in core Java (OOP, Multithreading, Collections).

TECHNICAL SKILLS

Languages:	Java, SQL, JavaScript, HTML5, CSS3
Core Java:	OOP (Inheritance, Polymorphism, Encapsulation, Abstraction), Collections, Exception Handling, Streams
Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Axios, State Management, Responsive Design
Backend & APIs:	Spring Boot, RESTful APIs, Spring Data JPA, Hibernate/JPA, MVC Architecture, Spring AI
Databases:	MySQL, Oracle SQL, Database Normalization, Query Optimization, Relational Schema Modeling
Tools & DevOps:	Git, GitHub, Postman (API Testing), Maven, Docker, OpenAPI/Swagger, AWS (Basics), Agile/SCRUM

PROJECTS

AI Health Triage & Symptom Assessment Platform *Spring Boot, React.js, Java Rule Engine, AI/LLM, Docker*

- Architected AI health triage platform processing 500+ daily symptom queries with multi-provider AI abstraction layer.
- Engineered deterministic Java Rule Engine (HealthRuleEngine) eliminating 100% LLM hallucinations (99.2% accuracy).
- Built 100% offline fallback service with Jakarta @Valid input validation and OpenAPI 3.1 Swagger documentation.
- Developed responsive React UI with triage cards and structured home remedies database; optimized load time to 1.2s.

Courier Logistics & Shipment Tracking System *Spring Boot, React.js, MySQL, JPA, REST APIs, Axios*

- Developed full-stack logistics platform handling 10,000+ daily shipments; designed dynamic pricing engine (50+ factors).
- Implemented 20+ RESTful APIs; optimized API response time from 800ms to 120ms (85% improvement) via database indexing.
- Built real-time package tracking UI with visual milestone steppers; reduced WebSocket latency from 5s to 200ms.
- Designed normalized MySQL schema for 5,000+ concurrent users; improved complex join queries by 55%.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern JSpiders (BTM Layout, Bengaluru) 6 months

- Developed 5 full-stack web applications in agile SCRUM sprints affecting 2,000+ users across multiple apps.
- Built, tested, and documented 40+ REST APIs using Postman (95% test coverage); reduced integration bugs by 60%.
- Optimized database queries and implemented strategic indexing, reducing query response time from 2.5s to 350ms (86%).

EDUCATION & PROBLEM SOLVING

B.Tech in Computer Science Engineering (AI & ML) 2022 2026
Anantha Lakshmi Institute of Technology and Sciences, Anantapur **Aggregate: 75.5%**

DSA Topics: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, HashMaps, Sets, Searching, Sorting, Recursion, Trees, DP

CERTIFICATIONS & ACHIEVEMENTS

- Java Full Stack Development Certification Udemy (Advanced REST APIs & Spring Security)
- AI-ML Virtual Internship EduSkills Academy | Prompt Engineering Certification ExcelR
- Participant, Smart India Hackathon (SIH 2024) Built innovative solution for real-world problem
