PROFILE SUMMARY

Aspiring Java Full Stack Developer with hands-on experience building full-stack web applications using React.js, Spring Boot, and MySQL. Strong grasp of core Java (OOP, Collections, Exception Handling, Multithreading) with practical skills in REST API design, deterministic rule engines, frontend-backend integration, and resolving CORS/API issues. Strong foundation in Data Structures & Algorithms and a proven track record of shipping production-grade full-stack projects.

TECHNICAL SKILLS

Languages:	Java, SQL, JavaScript, HTML5, CSS3
Core Java:	OOP (Inheritance, Polymorphism, Encapsulation, Abstraction), Collections Framework, Multithreading, Streams, Exception Handli
Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Axios, Responsive Web Design, State Management
Backend:	Spring Boot, RESTful APIs, Spring Data JPA / Hibernate, MVC Architecture, Spring AI
Databases:	MySQL, Oracle SQL, Database Normalization, Relational Schema Modeling
Cloud & Tools:	Git, GitHub, Postman (40+ APIs tested), Maven, Docker, OpenAPI / Swagger, AWS (Basics), Agile / Scrum

PROJECTS

AI Health Triage & Symptom Assessment Platform *Spring Boot, React.js, Java Rule Engine, AI/LLM, Docker*

- > Architected an enterprise AI health triage platform with natural language symptom extraction and multi-provider AI abstraction.
- > Built a deterministic Java Rule Engine (HealthRuleEngine) as safety authority to eliminate hallucinations and flag emergency red-flags.
- > Implemented 100% offline fallback service, Jakarta @Valid input validation, and interactive OpenAPI 3.1 Swagger documentation.
- > Developed responsive React UI featuring interactive triage cards, structured remedies, and specialist referral recommendations.

Courier Logistics & Shipment Tracking System *Spring Boot, React.js, MySQL, Hibernate/JPA, Axios*

- > Developed a full-stack logistics platform supporting dynamic shipping rate calculations, multi-step booking wizard, and customer CRM.
- > Implemented 20+ RESTful APIs in Spring Boot managing consignments, warehouse routing hubs, delivery agent assignments, and payments.
- > Built real-time package tracking UI with interactive visual milestone steppers (Order Placed -> In Transit -> Delivered) and receipts.
- > Designed normalized MySQL relational schema using Spring Data JPA with entity relationships for packages, waypoints, and fleet.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern - JSpiders BTM Layout, Bengaluru

- > Developed full-stack web applications using React.js and Spring Boot as part of a collaborative agile development team.
- > Built and tested 40+ REST APIs using Postman; handled end-to-end frontend-backend data flow and state management.
- > Resolved CORS policies and API connectivity bottlenecks, and optimized relational MySQL schemas for CRUD operations.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML) 2022 - 2026

Anantha Lakshmi Institute of Technology and Sciences, Anantapur **Aggregate: 75.5%**

PROBLEM SOLVING & CERTIFICATIONS

DSA Topics: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, HashMaps, Sets, Searching, Sorting, Recursion

- * Java Full Stack Development Certification - Udemy
- * Prompt Engineering Certification - ExcelR
- * AI-ML Virtual Internship - EduSkills Academy
- * Participant, Smart India Hackathon (SIH)
